

Together

... we will decorate a garden with garden furniture, plants and other decorative elements and create a meeting place

„Garten der Begegnung“.

We start on **Saturday, 2 September 2017, at 10 a.m.** at Bullay, Am Grünen Weg (community centre of Türkisch-Islamische Gemeinde).

Working together offers many opportunities to join into conversation, to encounter different biographies, to mitigate initial concerns and break down cultural barriers.

Together with the artists Turgut Gül and Martin Richerzhagen we will create a bench in the style of Gaudi and build furniture out of wooden pallets. This will be a beautiful place for future meetings and joint festivities.

On 2 September we will start to create a mould for the bench with Turgut Gül and to develop creative ideas for the wooden seating ensemble with Martin Richerzhagen. We will prepare pallets for the future use and will begin with the construction of the wooden furniture. Furthermore we will start to sew pillows for the wooden furniture.

Further meetings are planned for 16, 23 and 30 September 2017.

We are looking forward to seeing you!
